

Bullying, Harassment, Intimidation, and Hazing

Bullying, Harassment, Intimidation, and Hazing School Districts are required by law (HB.276) to collect and post data of student discipline related to Bullying, Harassment, Intimidation, and Hazing. It also requires that districts submit semiannual written summaries of this data to the district board president and post the summary on the district's website. The District's policy on these behaviors can be found on the Coventry Local Schools website under 'Parents & Students' then 'General Information.' Students should report incidents of bullying, harassment, or intimidation to the principal, assistant principal, teachers, and/or counselors. All information will be confidential. The list is limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events. The Coventry Local School District had 40 cases of Bullying, Harassment, Intimidation, and Hazing at the last reporting period (May 3, 2017).

Building	Number of Incidents
High School	11
Middle School	22
Elementary School	7
